ROMANTICUM THE NEW INTERACTIVE EXHIBITION

Fairy tales and myths, a mysterious rock and stories of bygone Time: Discover the Upper Middle Rhine Valley in the interactive exhibition experience on over 800 m². Take part in a fantastic journey through time as a virtual steamboat passenger and experience the pure romance of the Rhine up close while getting to know the river and its fascinating legends and myths, above all, the mysterious Loreley and her legendary rock.

You can save all the myths, art, culture and history that you experience using a QR code on your admission ticket and recreate it at home on your computer. The interactive exhibition is housed in a new building that is a work of art in itself. The "Forum Confluentes" culture centre, designed by German-Dutch star architects Benthem-Crouwel, is considered to be an architectural masterpiece. www.romanticum.de
